Jazzistic

That classic jazz sound !

This awesome collection is full of authentic sounds, loops, kits, and instruments entirely dedicated to Jazz: drums, double bass, jazz guitar and some typical electric keyboards.

The main part of Jazzistic focuses on drums, using different styles, tempo and drum sticks, offering you access to more than a thousand loops and phrases from the most basic to the most sophisticated jazz patterns:

- Swing
- Brushes
- Latino
- Herbie
- Funky Jazz
- Big Band
- Breakbeat and more !

Expertly produced and engineered by Yassine Dahbi, and played by the most talented Jazz players - Jean Christophe Calvet (Drums), Pierre Yves Lamy (Guitars) & Olivier Gatto (Double Bass). Recording session were achieved with authentic jazz perspective in mind, using the most organic audio gear in a typical jazzy room.

In addition, we did include some extra brushed drums sounds recorded in outstanding conditions in one of the biggest studio in the world and more than 200 Jazz patterns as MIDI files and BPM Patterns to work with the drumkits and for maximum flexibility.

The result : that classic jazz sound, with swinging, and modern attitude. This is the ultimate jazz loops product for comping a vintage vibe, or remixing some jumpin' grooves.

Jazzistic also includes basic and essential double bass and guitar loops, played with finest taste.

But that's not all, thanks to the UVI concept, you will also find instruments ready to play :

- 2 excellent sounding Double Bases
- Several variation of a pure Jazz Guitar
- Vintage Rhodes MK1
- Jazz selection of Hammond B3 sounds
- Drum kits

Supplied with the UVI Workstation, it is also the first UVI Soundcard to contain Kits and Patterns in BPM format, for an improved flexibility.

Jazzistic will be the tool of choice for every demanding producer who wants to inject the true soul and attitude of the roots of Jazz.
